## OBJECTIVE

To learn, grow and become a responsible designer who is able to make a difference to the community and contribute to this discipline through innovation and simplicity.

## ABOUT ME

I've always wanted a profession that utilizes my innate talent and brings me joy. Since childhood, I've been captivated by the art of spatial design and spent countless hours building things. This passion led me to study Architecture. As an architect and designer, my journey has transformed my perspective on life. I'm driven by a passion to make a positive impact in various communities. My design approach emphasizes authenticity, innovation, and simplicity.

### ACHIEVEMENTS (Academic)

1. Masters thesis project has been approved for filing Intellectual Property Right (IPR) at SPA, Delhi.
